Manufactured out of High Density Polyethylene (H.D.P.E), our VIT/GLISS runners will both perfectly guide your belts and improve the load capacity of each belt by reducing its friction on its runner.

Advantages:
- Perfect guiding of the belts.
- Low friction coefficient.
- Excellent resistance against abrasion.
- Shock-proof.
- Good resistance against corrosion and many chemical agents.
- Maximum continuous working temperature: +70°C.
- Extreme temperature limits: -40°C to +100°C.

Delivered in bars of 3 m.

Attention:
Take care of the HDPE longitudinal dilatation: 2 mm per metre for a 10°C increase in temperature.

Delivered in bars of 3 m.

White or blue HDPE runners for food industry.
C-shape stainless steel rail.
Special runners following our customers schemes.
Consult us.

These runners can be bent without any special tool to be fixed on curved conveyors, thanks to their flexibility.

2 standard sizes for Ø 12 mm round belts:
- 25 x 16 mm and 20 x 20 mm.

Recommended belts: POLY/FLEX or any other frosted belt.
Manufactured out of High Density Polyethylene (H.D.P.E), our VIT/GLISS runners will both perfectly guide your belts and improve the load capacity of each belt by reducing its friction on its runner.

Advantages:
- Perfect guiding of the belts.
- Low friction coefficient.
- Excellent resistance against abrasion.
- Shock-proof.
- Good resistance against corrosion and many chemical agents.
- Maximum continuous working temperature: +70°C.
- Extreme temperature limits: -40°C to +100°C.
